CABBAGE MARKET IS IN A PECULIAR CONDITION.

New Crop from South Is Selling at Lower Prices than Last of Old Stock Sold at-Green Beans at \$2.50.

The local cabbage market presents a peculiar situation this spring. To fully show this unusual situation it is necessary to go back several months. All this year cabbage sold at much higher prices than those obtaining last year. This was caused by a lic; clear backs, 20 to 30 lbs average, 9%c; 17 to short crop last year. Practically the last of clear sides, about 50 to 60 lbs average, 9%c; 30 to the old stock was sold last week. The price | 40 lbs average, 10%c; 20 to 30 lbs average, 11c. In of the commission houses to retail merchants for the last of the old stock was \$80 the last stocks of old cabbage were sold out

in the spring of 1903. Usually, when new Southern cabbage comes into the market it sells for a much higher price than the old crop. But this year the condition is reversed. The last prices for the old crop were higher by % to cent a pound than the price the Southern barra cabbage is selling now in this market at \$3 and \$3.25 a crate (100 pounds.) The Southern cabbage crop this year is yery large, and the crop is of a fine quality. The Florida green bean crop is about exhausted. Most of the green beans coming into this market now are of the Louisiana crop. They are worth \$2.50 a bushel.

WHEAT MARKET REACTS

MORE BEARISH REPORTS ON SOUTH-WEST WHEAT CAUSES DECLINE.

Armour Selling Again Causes Weakness in the Corn Market-Reported to Have Sold 1,000,000 Bushels.

CHICAGO, April 22.-Revision of expert reports making wheat conditions in the fined quiet. Southwest more bearish was largely instrumental in starting heavy liquidation of wheat to-day. The July delivery closed with a net loss of %@1c. Corn is off %@ erate liquidation, following weak French 1/2c. Oats are down 1/26%c. Provisions cables. There was a fair demand, howclosed practically unchanged.

trading in the wheat pit there was an air which absorbed demands promptly and held of uncertainty. In consequence transactions were rather light and prices were about where they left off yesterday, with July 1/2c to 1/4c lower at 85c to 851/4c. Suddenly the market collapsed and a decline of 1c or more was experienced in all deliveries. Trading became active and a general disposition to sell became manifested. Reasons for the weakness which had thus quickly developed were various. A correction of a crop expert's report of the Southwestern situation, as first received yesterday, and which was originally exceedingly bullish, largely nullified the

first conception of the situation. Traders who bought on the supposition that western Kansas and western Oklahoma were the portions of the Southwestern territory referred to in the report as being past redemption had the wheat for sale to-day. The sellers had in the meantime ascertained that the irredeemable portion of the Southwestern wheat fields was confined to western Texas and western Oklahoma.

LIVERPOOL MILLERS BUY INDIAN A cable dispatch from Liverpool stated No. 2 cash, 41½c; track, 42½c; May, 37%c; July, 36¼c; No. 2 white, 45c. Hay steady; timothy, \$7@14; prairie, \$8@10. Whisky

that millers were buying considerable steady at \$1.321/2. Iron cotton ties, 82c. Bagquantities of Indian wheat for May and June shipment at the equivalent of 83 cents a bushel. Such a contrast with the prices at which wheat could be laid down from | brls; wheat, 5,000 bu; corn, 25,000 bu; oats, here had much to do with the heavy sell- 12,000 bu. Shipments-Flour, 11,000 bris; ing pressure. In addition there was a wheat, 64,000 bu; corn, 62,000 bu; oats, 38,large increase in Argentine shipments. No | 000 bu. Many stop loss orders were reached, ac- | No. 3, 94@97c. Corn lower; May, 43%c; July, celerating the decline. Hay higher; choice timothy, demoralized condition the entire session, \$10.50@11; choice prairie, \$8. the close being weak. After selling off to 84c July closed at 84%@84%c. May ranged between 87%c and 89%c and closed at 88%c. Clearances of wheat and flour were equal to 145,900 bu. Primary receipts were 230,100 bu, against 286,900 bu a year ago. Bradstreet's reported world's export as equal to 1,645,400 bu. Minneapolis, Duluth and Chicago had receipts of 161 cars, compared with 156 cars last week and 167 a year ago.

CORN MARKET WEAK. The corn market was weak, partly in sympathy with wheat and partly owing to | @5.05; second patents, \$4.85@4.90; first clears, liberal selling by Armour. Over 1,000,000 bu of May were reported sold by the erstwhile bull leaders. There was a little firmness early, but on the break in wheat liquidations of May corn set in. The attending decline carried the price of July and September down with it. There-

after the market was inclined to drag, about the only support coming from shorts. July opened unchanged to 1/3c higher, at 4814@ 18%c, sold off to 47%c and closed at 48%@ othy, 431/4c. May ranged between 471/4c and 491/4c, 197c; July, 871/4c; cash, 98c. losing at 48c. Local receipts were 133 cars, with twenty-five of contract grade.

CONSIDERABLE SELLING OF OATS. Pit traders were persistent sellers of distant deliveries of oats due to more favorable crop advices. As a result of this selling pressure and under the influence of the slump in wheat and corn the market ruled weak, but the declines were not as pronounced as in other grains. The principal support came from shorts. After opening unchanged to 1/4c lower, at 363/6/361/2c. July sold down to 35%c, and closed at 35%@36c. Local receipts were fifty-one cars.

PROVISIONS QUIET. Provisions were quiet, and in view of the weakness in grains the market held comparatively steady. There was some selling to choice, 15@20c; held creamery, common on a liberal run of hogs, but the market re- to choice, 13@19c. ceived fair support from packers and shorts. July pork closed down 7½c, at \$12.25. July State full cream, large and small fancy, lard was a shade higher at \$6.75\(\text{06.77}\). Ribs September, 11\(\text{011}\); state full cream, large were off a shade at \$6.521/2/66.55.

LIVERPOOL, April 22.—Frederick Leyland & Co., limited, the first British line purchased by J. Pierpont Morgan when forming the shipping combine, issued a report to-day for the thirteen months ending with December. The directors say that even after drawing \$1,347,500 from the reserve, it is only possible to pay the preferred dividend for six months. This withdrawal reduces the reserve to \$325,000. The directors attributed this result to the epidemic of foot and mouth disease in New England last year, stopping shipments of live stock therefrom, and to the inadequacy of Atlantic freights.	1 1 1 1

THE BUSINESS OUTLOOK

UNSEASONABLY COLD WEATHER IN-TERFERES WITH BUILDING.

Distributive Trade, Both Wholesale and Retail, Has Practically Marked

NEW YORK, April 22.-Bradstreet's to-

Time-Week's Failures.

Unseasonably cold weather all over the country interferes with plant preparations and growth and interrupts outdoor activity in many lines, notably building. Distributive trade, both wholesale and retail, has practically "marked time" during the The effects of this and of past unfavor-

able weather are reflected in reports of slow business in shoe manufacturing and building, while in cotton manufacturing high prices of raw and manufactured goods continue a bar to activity. At the South cold weather is complained

of as interfering with farming preparations and with plant growth. These causes have combined to give an air of unwonted quiet to spring business and have unquestionably retarded collections. Back of weather and price conditions there looms up the political outlook, which in most presidential years has induced a tendency toward conservaest. est. ing. Sales.

While fall trade has opened up measurably well in some sections, there is a natural tendency to await future developments affecting crop and other conditions.

Among the industries iron and steel note an accentuation of the quiet observable last week. Buyers for delivery during the second quarter are as insistent as ever in demands for delivery, but makers of finished products, with few exceptions, observe hesitation in the placing of orders for the balance of the year, this hesitancy being increased by the reduction in the price of ore. Agricultural implement manufacturers are among the freest buyers of steel, but the railroads are taking only sparingly. Woolen goods machinery could be more active. The market is rather low at the

East, though higher prices than last year Many of the shares did not move are reported being paid for the new wool more than half a point. None of the clip at the West. heed was paid to crop damage reports from the Ohio valley and Indiana, the general desire being to liquidate long wheat.

KANSAS CITY. April 22.—Wheat—May, the expectation of a decision during the day on gas legislation kept Consolidated than expected movement, inducing liquidate represented nothing but scalping by profestion. There are some exceptions to the signals. United States Steel preferred was quiet tone noted, especially in the rubber quiet tone noted, especially in the rubber sionals. United States Steel preferred was trade, which is quite active; in lumber, which shows more activity in some secstocks to show a net loss of as much as a | tions; in hardware and in anthracite coal, which is selling well in anticipation of the

usual monthly advances and on continued cold weather. A spring trade is being done in staple groceries and lines which fluctuate little from year to year. The poor trade in flour was a depressing feature this week, the mills refusing much business at the lower rates. Some export business was reported done at the declines in wheat and corn. Home

are smaller and prices of animals higher. Coffee declined slightly on larger receipts. Business failures in the United States for the week ending with April 21 number 199, against 198 last week, 152 in the like week in 1903, 181 in 1902, 214 in 1901 and 182 in 1900. good, and a majority of the stocks that In Canada failures for the week number eleven against twenty last week and thirteen in this week a year ago.

products declined again, though receipts

"No further new prices have been named tures. In fact, there was no market except cept on Hocking for Chicago delivery. during the week on bituminous coals, exlittle effort to scalp by traders. They Owing to the heavy demand for this grade of coal in Chicago, and the fact that most f stock for sale. On the other hand, any of it comes all-rail to a keenly competitive ffort to break prices met supporting market, which is always well supplied, the leading interests have named a price of yndicates, which seem determined to hold \$3 f. o. b. Chicago. This price only applies he market steady. Unfavorable conditions to the switching limits of the city, and no coal will be sold outside at less than the dock price of \$1.70 f. o. b. the mine.

"The opening of lake navigation is attracting much attention from the leading producing interests of the country and is one of the most important features of the present market. That the lake season will open much later than usual is a fore-LIVERPOOL, April 22.-Frederick Ley- gone conclusion as a result of the late and & Co., limited, the first British line spring. If carrying companies were inclined to ship coal to upper lake ports they could ourchased by J. Pierpont Morgan when not do so before May 1, at the earliest."

> The Week's Wool Trade. BOSTON, April 22.-The Commercial Bul-

letin will say Saturday:

cical buyers.

There is little doing in wool in Boston. Fine fleeces have been sold to a fair extent at about 2 cents off from the top. Holders are anxious to clean up. There is no great pressure to sell medium grades. Western markets have been lively, with large transactions in Utah, Wyoming and other sections at 13c to 15c, which means that the new wools are costing fully as high as last year and in some cases higher. From 23c to 24c is asked and being paid for medium clips in Ohio and Michigan.

Foreign markets are firm, with London advices especially strong on quarter blood and a firmer feeling on merinos. At the auction sales to open May 3, higher prices, particularly on cross breds, are antici-The shipments of wool from Boston to date, from Dec. 31, 1903, are 71,713,958 lbs. against 78,992,770 lbs at the same time last
